PX 125 - 150  
PX 125 - 150 2T euro 2 (VLX2M)  
PX 200 E  
T5 125

*The greatest innovation of these new Malossi carburettor kits is the modular intake manifold. It allows to rotate the manifold into the flange according to the specific requirements of one's own vehicle, in order to identify which is the best angle for fitting the carburettor.*

Products to be used exclusively for racing in places specially designed for such activity according to the regulations of the competent sporting authorities. We accept no liability resulting from improper use.
